REVIEW:

I was not entirely sure about this book in the beginning, but I ended up liking the story. There's Ever, a girl whose abilities are trapping her in her own little world, staying away from as many people as she can, except of course her 2 friends and Damon.

Ever hasn't met anyone whose head she can't get into since she got her powers, but Damon is completely blocked out. Ever can see people's auras, but when she looks at him there's nothing. He can make flowers appear out of thin air like a fancy magician. Ever knows that there's something he's hiding and even knowing that she can't help but be drawn to him, like they've been close forever and not like they'd just met.

Something happened to Ever before and she's about to find out what. If she lives, that is.

This book was one that I hope to stick to by continuing to read the following sequels in this series.
