REVIEW:

I've been following this series for a while and I have to say that the story line is very addicting. This book in particular had many fantastic yet drastic things happen. I can't tell you, because then I would spoil it for you, but I highly and strongly recommend that you read them. No, these are not Twilight vamps, but they are very interesting.

As a bunch of tension builds up over the first 4 books this 5th book makes for a very surprising turn of events. And I still can't grasp what I just read. I can't wait to read the next one! Even if you claim to not like reading vampire books, give it a try, I promise you'll love it....you'll see.
